SAM GREER STILL IN JAIL

HIS APPLICATION FOR BAIL DENIED.

A Charge of Perjury at New Westminster—Jealousy Leads to Attempted Murder—Russia's Doings in Afghanistan—A British Vessel Lost.

NEW WESTMINSTER, Oct. 1.—Mr. Justice McCreight, yesterday afternoon, refused to grant the application for bail for Sam Greer, holding that the offence was too serious to admit of bail.

In the case agianst Johnson, of Vancouver; for embezzlement from his employer. Lewis Davis, the prosecutor, is said to have perjured himself, and Judge Bole ordered his arrest. He was released last night on $3,000 bail, appeared this morning before the police magistrate and was committed for trial.

There was great rejoicing here when the news arrived of Westminster's firemen winning the consolation race. The boys will receive an ovation when they return.

A Fiendish Lover.

BRIDGEPORT, Conn., Oct. 1.—Maggie Carroll, a beatiful young girl, lies at the Emergency Hospital, hovering between life and death. She went rowing last evening with Wm. Wyncoop, who had been keeping her company for a year or more, and when they left the boat house they were chatting pleasantly. When near the beach Miss Carroll remarked that a young man of her acquaintance was very nice. This aroused Wyncoop's jealousy, and he exclaimed, "Repeat that and I will drown you." Miss Carroll demanded that her companion row her to the beach that she might leave him. Instead of doing so, he deliberately threw her into the water, and in doing so was pitched out himself. A savage fight followed, Wyncoop trying to push Miss Carroll under. He succeeded in doing, but people on a passing yacht had been attracted and went to her rescue. Both were taken on board. The lady was unconscious and she was sent to the hospital. Miss Carroll's condition is critical. After Wyncoop was sufficiently recovered he was arrested and held without bail.

A Steamer in Danger.

NEW YORK, Oct. 1.—The big side-wheel sound steamer, C. H. Northam, which left this city for New Haven yesterday, was reported late last night to be high upon the rocks. The story was brought to this city by a party of excursionists. They reported passing the steamer about seven o'clock last night. She was brightly illuminated, and her passengers could be seen moving hastily about her decks. It was dark at the time, but the excursion boat ran close enough to the stranded vessel to distinguish her name. The C. H. Northam left her pier at the foot of Peck slip at 3 o'clock yesterday afternoon. She carried about 200 passengers it is said and a full cargo of mixed freight. The steamer was due to arrive at New Haven at 8 o'clock last night. When the excursion party passed the stranded steamer a small boat is said to have been alongside with some sailors climbing into it. It is presumed they were going ashore for help. Black Rock has long been complained of by mariners. No light marks it and it is almost directly in the path of passing vessels. A heavy sea was running last night and a stiff breeze was blowing. It is feared the steamer may be seriously injured.

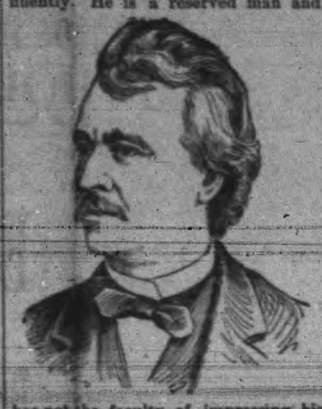
SCULPTOR LOUIS REBISSO.

The Italian Maker of the General Grant Statue in Chicago.

Louis Rebisso, sculptor of the Grant statue, the massive work that now crowns the stone arch near the Lincoln Park shore, Chicago, is an Italian by birth. He speaks English well but not fluently. He is a reserved man and



has not the faculty of impressing his personality upon others. He states he can speak best through his chisel. Mr. Rebisso is one of the instructors in the Cincinnati Art School, which duties he attends to in connection with the public works upon which he has been engaged. His other great statues are the equestrian one of Gen. McPherson in Washington, fourteen feet high, and the standing statue of the same hero over his grave at Clyde. He is now completing the casts of an equestrian statue of Gen. Wm. H. Harrison, for the city of Cincinnati, which will soon go to the foundry.

Revolution in Brazil.

PARIS, Oct. 1.—Le Matin to-day says a revolutionary agitation in several provinces in Brazil is causing the government great uneasiness. In many places the troops have mutinied, and government must adopt strong measures if it hopes to maintain order.

IN GLORIOUS WEATHER.

THE FIRST AND SECOND DAYS OF THE SHOW PASS OFF.

Over 3,000 Persons Visited the Grounds Yesterday, and a Still Larger Number To-Day—Universal Commendation—The Annual Meeting and Election of Officers.

Victoria's good weather fairy returned from a prolonged absence yesterday and brought sunshine and clear skies with her. This was the salvation, practically of the fair, for notwithstanding the untiring efforts of the directors and officers, continued bad weather would have had a disastrous effect. Consequently the immense crowds that visited the show grounds yesterday "were a sight to see." According to the ticket returns over 2500 persons paid for admission yesterday, and if membership and season tickets are counted, the number of people admitted must have exceeded 3000. The principal building offering such a splendid prospect with its displays of goods all set in order, seemed to become embodied with life when the great moving mass of humanity wended its way through the passages. The scene was a very refreshing one to the spectator. Not a vacant spot; not an unfrequented corner; nothing but an immense concourse of admiring, criticizing humanity. Harry Stone, the well known driver and trainer, transformed part of himself into a caterer, and with an army of attendants satisfied many hundred ferocious appetites. He spread a first-class table and gave satisfaction to all. It was difficult to be patient with a lot of hungry people pressing and grumbling as they waited for a seat at the crowded tables, but when they got to a seat they were soon in receipt of an appetising dinner. From the time of the official opening till late last night the crowd moved; the street cars were crowded both ways. Never before has the old Fort street route been the scene of such a crush.

The main building has already been noticed, and a glance round the live stock department will not be uninteresting. It is a pity that this branch has fallen off somewhat this year, more particularly among the large up country stock raisers. Page, of Matsqui, is the principal exhibitor in this class, while for Victoria interests in this respect the Cloverdale stock farm holds the fort. It holds it with remarkable power, too, for the stock has taken prizes in everything for which it was entered. The majority of the remainder of the live stock exhibits are by private people who enter for the pleasure attaching to it. It is to be hoped that another year will see the stock raisers come to the front with more spirit. The Cloverdale stock farm, as before mentioned, was remarkably fortunate, securing first prize in everything for which the stock was entered, and only taking second where the farm made two entries. Royal Knight as a yearling bull took first prize at New Westminster as well as the sweepstakes, and obtained a similar honor here. Chilton's Prince took first as a nine months calf. Frolic has first as a yearling heifer, both here and at New Westminster. Chilton Lass took second prize to Frolic. Sweetbriar is another of the prize-winning herd. Katinkah IV has first prize as aged cow, and her calf, Katinkah's Pride, has first as heifer calf. The beautiful milk-white cow Moonlight is a big prize winner both here and at New Westminster, and Molly Bawn, almost a copy of her, takes second prize to her.

In pigs and sheep the Cloverdale stock farm also holds its head high, taking first prize for boar and sow; first prize for ram lamb; second for ewes, and first prize for Leicester ram. For horses the farm takes first prize for a three year old filly out of Lizzie F. by Anteo 2.16¼. Lollard, a beautiful roadster stallion ran off in a stiff field with first prize in his class. He looks a splendid animal, full of spirit and life, yet as kind and gentle almost as a lamb. He is by Harry Clay, 2.29, dam by Malcolm, son of imported Bonny Scotland, a noted Kentucky horse, the stallion Midgard took second prize to Lollard. He is by Mambrino Dudley, 2.19¾. Gyp took first prize as buggy horse. The horses are under the care of Mr. Dan Mitchell, formerly of Buffalo, N.Y., but a native of Australia. He is a horseman of considerable experience, making his profession almost a hobby.

H. F. Page, of Matsqui, exhibits some of the well-known Percheron breed of horses, and takes some good prizes. He also takes first prize for Holstein bull calf, and has other prize winning stock. J. W. Flett, W. H. Ladner, John Kirklands and the Gonzales farm take away several prizes. Mr. J. T. Wilkinson shows 17 head of Southdown sheep, and takes the special prize for the best exhibit of sheep on the ground. One of these, a ram, was sold last night on the ground for $75.

The poultry department is very interesting, and is both large and varied. Dr. Milne's stock takes practically all the first prizes. He secures first on white Brahmas; first in Brown Leghorns, both cock and hen; first in White Leghorns; first for both cock and hen in white Cochins; first for dark Brahma cock; first in light Brahma cockrel; first in buff Cochin cock, hen and pullet; first for cock and hen, Langshans; first for Plymouth Rocks, cockrel, hen and pullets; first for Laced Wyandotte cock and hen; first and second prize for male and female turkey; first prize for black Minorca cock; second for black Minorca hen. Altogether the Doctor showed about 60 entries and took the prize for the second largest number. Mr. Sturdy took first prize for the largest number of entries.

THE ANNUAL MEETING.

The annual meeting of the association was held at the grounds this morning, President D. R. Ker in the chair, and there was a very large attendance.

Mr. W. H. Ellis was unanimously elected president of the association for the coming year.—Mr. E. Hutchinson of the Jubilee Farm, 1st vice-president; Mr. J. McIlmoyl, 2nd vice-president; Mr. G. A. McTavish, treasurer; and Mr. W. H. Bainbridge, secretary. Directors from the mainland:—H. D. Benson and John Kirkland, Ladner's; J. C. McLagan and S. Brighouse, Vancouver; Thomas Shannon, Surrey; James Johnson, Langley; J. F. Wilkinson and H. F. Page, Chilliwack; Professor Sharp, Agassiz; G. W. Henry, Maple Ridge; W. H. Ladner, Ladner's.

Directors from the island:—N. Shakespeare, Dr. Milne, Baker, Seabrook, W. Dalby, D. R. Ker, J. Braden, Carter, J. Pendray, J. Lorimer, Sandover, King, W. Thompson, J. Perrin, J. Lamberton, S. F. Tolmie, C. E. Renouf, W. Templeman, B. Gordon.

The old board of trustees was re-elected.

Mr. Shakespeare moved, and it was carried, that a hearty vote of thanks be tendered the retiring president and officers.

The exhibition building proper is the principal attraction, of course, and now that the prizes have been awarded and the public know that judgment has been passed there is more interest manifested in the exhibits. His Honor the Lieutenant-Governor and Mrs. Nelson were again visitors at the grounds this morning, and made another inspection. M. W. Waitt & Co.'s musical exhibit is very interesting, and has been artistically arranged by Mr. Herbert Kent. There are shown pianos of such well known makes as the Weber, Fisher, Heintzman and Nordheimer, and the Estey & Peloubet pipe organs. In the intervals when the band is not playing, the sound of one of these instruments creates a soothing impression on the mind filled with displays of millinery, dairy and farm produce, flowers, fruits and pictures, as the case may be. Over the entrance to this little musical conservatory is a large star composed of violin bows, whistles and violin keys, while around and about are displayed cellos, guitars, zithers, mandolines, banjos and the various requisites of a musician. Mr. Kent presides at all this and gives the attending visitors many a pleasant little parlor concert. The exhibit of the Vancouver Candy Factory is a very creditable as well as exceedingly tempting one. It is the only wholesale establishment of the kind in the Province, and is filling "a long-felt want." The art department is a constant attraction and is largely attended, more so than was expected. Mr. McMickingi, who put in the electric light plant for the whole building, found that there would not be sufficient lights to illumine this portion, and at his own expense has put in an additional dynamo, running a number of incandescent lamps. The electric light is a vast improvement in the building, and being operated and generated on the spot, adds to the many interesting features. It is thought that the society will take steps to purchase the engine of the Albion Iron Works, rather than allow it out of the place.

There is some disappointment expressed at the fact that there are no exhibits of agricultural implements.

FIREMEN'S TOURNAMENT.

THE EVENT BROUGHT TO A SUCCESSFUL CLOSE.

Resume of the Three Days' Sports—Although Wet, Big Crowds Gathered—Everybody Satisfied With the Affair—Good Order Prevailed.

The championship race being run late in the afternoon yesterday, a full description could not be given in yesterday's issue. It should be mentioned that the time made by the Nanaimo hose team was but a shade under the best on record, and close enough to cause the Black Diamond boys to feel proud. The Astorias, who have held this championship for so long, were fairly vanquished. Everybody seemed pleased over the fact that Nanaimo's team captured this event, and when the result was announced the cheers of the crowd were hearty and loud.

CONSOLATION RACE.

After the champion races were over, the consolation came on. First prize, $300 and a silver trumpet presented by the Gutta Percha and Rubber Manufacturing Company of Toronto; second prize, $200; third prize, $100. Conditions:—Twelve men, exclusive of captain or trainer. Distance, 700 feet; 500 feet to the hydrant, lay 200 feet of hose, uncouple and screw on pipe. Hose cart to carry not less than 300 feet of hose and all couplings made. Time to be called when water leaves the pipe.

New Westminster made best time, 42 1-5 seconds; Albany next with 43 seconds, and Seattle third with 48 seconds. This finished the races to be held on Yates street.

NOTES.

In spite of the general kick against the Astorias, whose ranks certainly contained some fast men, they did not make a good showing, only taking one first prize, and that by a tenth of a second. The Seattle men were practically out of all the contests. The team was not trained or organized in time to do good work, but its members determined to come over and have the Queen city represented. Said one of them:—"Victoria acted white to us when the city was burning down and we wanted to show you that we don't forget favors."

Tacoma was not not represented at the tournament by a team, but Mr. Burbank, an active worker in the fire department matters, with Chief Lillis, were a host in themselves.

The good order and lack of fights and rows was a very noticeable feature of the event. It was generally believed that the gathering of the teams would mean trouble, but outside of a little growl now and then everything went smoothly. Not one disgraceful scene disturbed the whole three days' proceedings.

Compliments were freely given by the visitors to Victorians. President Worsley said he never saw a more polite lot of people at a tournament. A request from him yesterday that the track be kept clear for the championship race was obeyed with a cheer, all seeming to be anxious to give the competitors a fair held.

When the Nanaimo men were running their level best down the track for the championship race, a big dog started in with them and kept just at the leader's side, cheering on the boys with loud barks. He was evidently a mascot.

One drawback, and a serious one, was the wet. But for it there would have been more teams and more visitors. However, the crowd was about large enough.

The Guatemala Reports.

SAN FRANCISCO, Sept. 30.—General Reyna Barrios, who is most likely to succeed Barillas as President of Guatemala, in case the choosing is fairly left to the people, was seen at the Occidental hotel last evening. General Barrios has been in this city for many weeks, but has been in constant communication with a number of the most promjnent men of Guatemala, and is accordingly thoroughly posted on current affairs in the Central American republic. He read with the greatest interest the dispatches from the City of Mexico, and then said: "There can't be any truth in the reports. It is impossible to keep news of such importance quiet long. If there had been any outbreak in Guatemala on September 15th, as the dispatches say, we would have known it here within a very few days later. My country has been opened to modern improvements, there are telegraph lines in many directions from the capital, and telephones as well. It is easy to communicate with San Salvador, and from there to send messages to this country. I must say that I do not believe anything that is contained in the dispatches, and would not even if the date did not make it ridiculous. I know my countrymen, and it is not likely they would lose their heads and begin a revolt in such a way."

Why It is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

What They Say?

In popularity increasing. In reliability the standard. In merit the first. In fact, the best remedy for all summer complaints, diarrhœa, dysentery, cramps, colic, cholera infantum, etc., is Dr. Fowler's Extract of Wild Strawberry. All medicine dealers sell it.

A Long-Felt Want to be Supplied.

AUCTION

Wednesday, October 7th

AT 11 A.M.,

ESQUIMALT DISTRICT.

VALUABLE LANDS AT

Langford Plains and Neighborhood

I have been instructed to sell by auction at my saleroom, Fort and Langley streets,

Section 99—Containing 114 acres, more or less. This section forms part of the celebrated Langford Plains property, well known as a favorite spot for public picnics. A large part of this section is open and dry land, as level as a billiard table; the scenery is very pretty, the grounds having scattering oak trees through it, fringed with a comparatively light growth of fir and other trees in the background. This section partially fronts on the south side of a beautiful sheet of water known as Florence Lake. The Goldstream wagon road runs through the southern portion of this lot, and the E. & N. railway runs within 25 chains of the southern boundary, thus giving easy and cheap access to it.

Section 113—Containing 143 acres, more or less, adjoining and north of Section 99. This section takes in nearly the whole of Florence Lake. There is a large quantity of good limestone on a knoll at the northern boundary of this section.

These two properties are certainly the making of the finest recreation grounds in the neighborhood of Victoria City. The land in Section 99, in its native state, has no equal for a race track, cricket, baseball grounds and other sports; and the beautiful surrounding scenery is unsurpassed; the advantages of Florence Lake for boating and camping are splendid, and hunters are in the heart of a fine game country. These two sections will be sold together.

Section 112 A—Containing 68 acres, more or less.

Sections 116 and 85—Containing 141 acres, more or less. The Goldstream wagon road runs through the lots. These lots have a frontage on Langford Lake, and will be divided into four lots of about 35 acres each, and each lot will have a frontage on the lake. This property commences at the east end of the lake.

Lot 67—Containing 109 acres.

Lot 68—Containing [illegible]

Both these lots front on the junction of the Sooke and Metchosin roads.

Terms of Sale—Half cash, balance in twelve months at seven per cent.

BOULANGER DEAD.

He Committed Suicide at the House of his Late Mistress in Brussels.

BRUSSELS, Sept. 30.—Gen. Boulanger has committed suicide. The suicide occurred at the home of Mme. de Bonnemaine, his mistress, who died here recently.

Boulanger committed suicide about noon. He stood alone by the grave of his mistress for some time, when an attendant who stood near by suddenly heard a sharp report in that direction, and rushed to the spot. The attendant found General Boulanger lying dead upon the ground, with a revolver clinched in his right hand.

Examination of the body showed that the dead man had placed the weapon to his right ear and fired the shot. The affair has caused great excitement here, and some commotion among the general's followers in Paris. The police and the dead man's friends here have taken possession of his lodgings.

The general's position, both financially and politically, has been getting blacker and blacker recently. He had no hopes for the future, and his remaining friends were few and becoming colder as the once famous general dropped more and more out of public notice. There is no doubt that the general was conscious of these facts, and that they preyed upon his mind. Coupled with this was the morbid love or infatuation which he had for his dead mistress, to whom he was undoubtedly greatly attached.

The body of the dead man was taken to his late residence in this city.

PARIS, Sept. 30.—The suicide of Gen. Boulanger has caused a great sensation in this city, and nothing else is talked of. Members of the Patriotic League are talking of giving a public funeral for the general, and they propose to inter his remains in France. It is believed it will lead to serious disturbances.

A California Forest Fire.

SACRAMENTO, Cala., Sept. 30.—For several days past there has been raging near Georgetown, in Eldorado County, the most terrible forest fire ever experienced in California. The fire caught near the town of Greenwood, and, fanned by a strong north wind, has swept over almost the entire stretch of country between Georgetown and Salmon Falls. Farmhouses, barns, fences, etc., have been destroyed, and it is believed that 30 or 40 families have lost everything they possess, barely escaping with their lives. The little mining town of Pilot Hall was literally swept from the earth. The fire passed over a section of country 25 miles in length and 20 miles wide. It is not known that there has been loss of life, but there were many narrow escapes. Hundreds of men were battling with the flames. Some of them are blackened and blistered, and have thrilling experiences to relate. A gentleman who was in the vicinity says that he one night heard the roar of the flames when they were fully three miles distant. State Printer Johnston, who came down from California yesterday, and who travelled over a portion of the burned district, says he never before viewed such a scene of destruction and utter devastation. Magnificent forests of a few days ago have been burned over and blackened and lofty pines seared and killed. The scene at night, it is said, baffles all power of description, there being a moving mass of fire as far as the eye can reach. Last night the flames were somewhat subdued, but it is feared that the increased velocity of the wind to-day will start the fire upon a new lease of destruction.

The Pope Celebrates Mass.

ROME, Sept. 29.—A grand and imposing religious ceremony took place this morning in St. Peter's church. For some days past the Pope has been receiving bodies of religious pilgrims from various countries, and the city is filled with the devout, many of whom have travelled long distances to pay honor to the earthly head of the Catholic church. When it was announced that the Pope in person would celebrate low mass this morning great eagerness was manifested by the pilgrims to attend the services. Sixty thousand persons were in the church. At 8:40 o'clock the Pope was carried to the throne at the pontifical altar. He was attired in pure white vestments, and wore upon his head the papal tiara. He carried in either hand fans which resembled beautiful palm leaves. As the head of the procession entered the church the trumpeters of the Swiss guard heralded the Pope's approach. As the Pope was borne along above the heads of the assembled thousands he raised his hands and bestowed benedictions right and left until he reached the altar. The greatest enthusiasm prevailed.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

LAND LAW REFORM.

The TIMES has this satisfaction at least, that its libel suit has called attention anew to the necessity of reforming the land laws of the province. In yesterday's issue we reported the remarks of the News-Advertiser, urging strongly the need of reform in both the law and the methods of administration. The New Westminster Columbian speaks as follows:

The Times, as was announced yesterday, was nominal loser in its defence against the libel suit brought by Hon. Mr. Vernon, Chief Commissioner of Lands and Works. The action was brought to recover $10,000 damages, the jury awarded $450 and costs. The published charges against the Chief Commissioner, on which action was taken, as summed up by the Times itself, consisted in allegations against that officer of favoritism in disposing of lands at Fort Simpson, and of interpreting the Land Act in the interest of friends. The Minister got damages, as has been seen, but the TIMES claims that the verdict was a compromise one, and figures it out in this way: "The charge of favoritism was apparently believed, but the inferences drawn by TIMES therefrom, and the comparisons made, were not accepted by the jury as justified." The TIMES, therefore concluded that, although "the costs of the action will fall upon the defence, the Province will reap the benefit, and a better method of administering the public lands will be the result."

Looking at the question in a broader sense than is possibly intended by the Times, there is, undoubtedly, much room for a better administering of the public lands of the Province. There is great room for reform in the general policy of the Government in that respect, without even hinting anything about malfeasance in office. It is sufficient to assert that the land policy of the Government has been, and still is, altogether too much in favor of the speculator and land grabber, and against the actual settler, and, therefore, opposed to the true and most vital interests of the country. Far too much of the public domain has thus been alienated already, and all the progress the Province is making, is made in spite of this terrible incubus, which is constricting its pulses, and hampering its natural growth in every direction. If the Times' criticism shall, in any measure, serve to call attention to the necessity for a radical reform in the whole land administration policy and system of the Government, they will not have been in vain, and its sacrifice will not have been in vain.

The New Westminster Ledger, while it would make out that there is nothing wrong with departmental methods, also wants the law changed. The Ledger says:—

* * * "Mr. Vernon's verdict exonerates him completely from the Times' aspersions, though apart wholly from his personality as an administrator, the fact remains that further legislation is still needed in restraint of large speculation in Provincial Government land. Progress has been made in this direction by our present administration, but other steps forward may well be taken, as much of the public domain is still passing on too easy conditions of tenure into the hands of speculators and not cultivators. The imposition of a condition of purchase requiring the early cultivation of a reasonable proportion of each block of farm land hereafter bought from the Provincial Government, would probably materially alter things for the better in this respect."

There is a substantial agreement among our contemporaries that the property of the Province is not rightly used, and the present system cannot be too soon abandoned. The land-grabber has had his own way too long, both with the law and with its administrators. The Province wants setters, but just now very little is being done to induce settlers to come. By all means let us encourage cultivation of the soil instead of speculation and land grabbing.

BOULANGER'S END.

General Boulanger's death by his own hand closes an important chapter in the history of the French Republic. The surviving members of the "Ligue des Patriotes" may vapor and froth and indulge in violent language, but they have no leader of influence, and are not likely to again endanger the existence of the Republican Government. Of course, there are many people who looked upon Boulanger as a true patriot, having the interests of his country at heart and sacrificing himself in her behalf. But the large majority believed him to be a schemer and a selfish adventurer, who was ready to adopt any means, however questionable, to elevate himself, regardless of the country's welfare. At all events, the general, whether consciously or unconsciously, played into the hands of the enemies of the Republic and became the tool of the malcontents, the imperialists, the royalists, the clericals, the socialists, and the restless radicals, all of whom were eager for the overthrow of the Government, each party hoping that it would come out of the resulting chaos as the arbiter of France's destinies. Orleanists were perhaps the most assiduous cultivators of Boulangism, for although they did not talk so much as the League of Patriots they supplied the funds without which the movement would have died almost at its birth. This was shown very forcibly by the exposure of the case of the Duchesse d'Uzes, who handed over great sums of money to help Boulanger in his election campaigns.

Boulanger first became prominent as a disturber of the existing order of things when he was Minister of War in the Brisson Cabinet of 1886. His schemes for army reform and his talk of war with Germany made him a nuisance in the Cabinet and a favorite with the fire-eaters. When the Brisson Ministry went out and the Floquet Ministry succeeded, Boulanger fell back into the position of commander of an army corps. He was at that time nominated as a candidate for the Chamber of Deputies in four different departments, and was accused of engineering a political intrigue which had for its object the upsetting of the ministry and the establishment of himself as dictator. He entered a strenuous denial, alleging that the nominations were spontaneous. He was then ordered to his corps headquarters at Clermont and told to keep himself out of politics. Soon afterwards it was discovered that he paid a visit to Paris in disguise, and in the course of the investigation into his conduct it was shown that he had been the director of the election manœuvres and that his denial was false. He had been in the habit of corresponding with his partizans by means of cipher telegrams. The result of the enquiry was his removal from his command and his being placed on the retired list. He then openly took the field as a candidate for the department of the Nord, and in an address accused the Chamber of suppressing the defenses of the nation, the Senate of choking every reform, and his judges of condemning him for reasons which they dared not avow. Boulanger posed as an extreme democrat and called for a revision of the constitution on popular lines, but his chief backers were Bonapartists and Orleanists, who gained for him a majority of 100,000 in the Department du Nord. In the Chamber he made fierce onslaughts on the Government, and on one occasion accused Premier Floquet of lying. The result was a duel, in which Floquet, though knowing nothing of swordsmanship, gave the general a bad woundin the throat. Boulanger was afterwards re-elected in the Nord and was at the same time chosen in three other departments. The elections, however, resulted in an emphatic triumph for the Republican Government, and Boulanger was left without support. Finally he was compelled to flee in order to escape arrest, residing at different times in Brussels and on Jersey. A complete exposure of his methods and the intrigues of his royalist backers was made in the famous articles in the Figaro, entitled "Les Coulisses de Boulangisme." More recently there was an attempt to rescuscitate his cause, and much wild wild talk of his landing in France and marching on Paris, but the general's courage was not equal to any such undertaking as that.

Boulanger's failure and the ignominious ending of his career will, no doubt, tend to solidify the republic, and let it rest more securely on its foundations. There seems to be no hope for either Orleanists or Bonapartists in the present situation in France.

The Wolff Family Concert.

This talented family gave their much-talked-of concert to a rather poor house in numbers, but a thoroughly appreciative one, last evening. Mr. Clement Rowlands sang with his usual force and expression, and Mrs Rowlands and Miss Minna Wolff charmed the audience with their duets, the latter lady rendering a recitation, "The Bridge of Sighs," in a very effective manner. Miss Tilly Wolff sang with great sweetness, and Mr. Ernest Wolff gave two solos on the violin in a very masterly style, handling the instrument like an artist. Mrs. W. W. Clarke's recitation, "The Maniac," was a great feature of the evening. She is a splendid dramatic actress, and her rendering of the piece was well nigh perfect. She carried the audience with her. As an elocutionist she is in the front rank. So well rendered and artistic a programme certainly deserved a better house.

The Costa Rica Returns.

The steamer Costa Rica, Capt. MacIntyre, returned from the north this morning, having left Ounalaska on the 20th September, and Sitka on the 27th. The man-of-war Nymphe and the C. P. N. Co.'s steamer Danube left at the same time, and are due now. Captain MacIntyre brings no news of importance. All hands are well, and the trip was uneventful.

Willamette Rowing Club Regatta.

On October 2 and 3 Northern Pacific R.R. Co. will sell round trip tickets, Victoria to Portland, Ogn., and return at rate of $11.75, including one admission to the Portland Industrial Exposition. Tickets good to return until Oct. 6.

Four thousand cases are being discharged into the bark Callao. The rest will go to Vancouver for Bell-Irving and Patterson, and she leaves again on Saturday evening.

Coming to the Wholesale Centre.

Mr. H. Galt, of the wholesale tea firm of F. and J. Galt, Vancouver, is in the city for the purpose of establishing a wholesale business. Victoria Vanquishing Vancouver.

"Both of the cities are growing fast," said Mr. Thomas Draper, of Vancouver, B.C., "but I think Victoria is now beating her younger sister, Vancouver. You remember how Vancouver shot up from a little village to a city inside of two years. She is growing rapidly, and the late census shows 14,000 inhabitants, but lately Victoria has taken a shoot upwards and will be 20,000 in a couple of months. We have not yet begun to to feel the advantages of the C.P.R. trade with China and Japan, but the three big boats are now coming in every fortnight and it won't be long before they will bring us money and trade." Mr. Draper is staying at the Walker.—Empire.

The Pisagua Arrested.

Deputy Sheriff Siddall who was appointed Deputy Marshall of the Admiralty Court, returned last evening from Moodyville, where he arrested the bark Pisagua, on a summons issued by the Admiralty Court at the instance of Hans Jensen, Frank Lanner and Jules Hansen, who claim that the ship owes them $220 for wages. It will be remembered that on the arrival of the ship here some time ago, the men named above were given in charge by the captain, who said that they had disobeyed orders. The case was dismissed against them at the time. The men now want their wages, but do not claim any damages for the time they served in the cells nor for the treatment Lanner received by being kept in irons aboard the ship. The captain refused to settle the matter with the marshall, but came down last evening to see his solicitor.

Another Addition to the List.

Officer Redgrave has added another capture to his long list. Last evening Mr. Teemer, bartender of the Jubilee saloon, had a $30 overcoat stolen from the bar room. Officer Redgrave was put in charge of the case and as usual visited the second hand stores. He found the coat and then started after his man, whom he caught after a short hunt. When arrested the man gave his name as Jas. Brown. Sneak thieves are discovering that they cannot come to Victoria and steal with impunity.

Myles-Findley.

The residence of Mr. Hugh Findley, 52 David street, was the scene last evening of a very pretty wedding. The principals were Miss Laura Jane Findley and Mr. James D. Myles, foreman of the C. P. R. workshops at Kamloops. The wedding ceremony took place at 8 o'clock, Rev. W. White of the Gorge Road Methodist church, officiating. The bridesmaids were Miss Annie Findley, sister of the bride, and Miss Miller, of Vancouver. Mr. R. Findley and Mr. A. W. Fraser, of Koksilah assisted the groom. There were about 25 invited guests present who, after the ceremony, sat down to a wedding supper, and then passed several hours in merriment. The bride was the recipient of many handsome presents from her many friends in the city, she being very popular. The happy couple boarded the steamer Yosemite this morning bound for Quebec, the former home of the groom, where the honeymoon will be spent. On their return they will take up their residence in Kamloops.

THE OTTO RELEASED.

Embargo Raised by the Order of Admiral Hotham.

Yesterday Admiral Hotham paid Collector of Customs Milne an official visit, which was brought about by the official correspondence regarding the seizure of the schooner Otto. The result of the conference and the correspondence alluded to is the following letter which has been delivered to the master of the Otto:

CUSTOMS CANADA,
COLLECTOR'S OFFICE,
Victoria, Sept. 30, 1891.

Mr. John Reilly, Master British Schooner Otto, Victoria, B. C.:

SIR,—I have the honor to inform you that I am requested by Rear Admiral Hotham, Commander-in-Chief, to cause the embargo laid on the cargo of the schooner "Otto" to be removed, pending further proceedings with reference to her seizure and papers.

I have the honor to be, sir,
Your obedient servant
A. R. MILNE,
Collector Customs.

By this it will be seen that a point has been conceded by the naval authorities, and the cargo and outfit of the Otto can now be handled by her owners. The rest of the matter will be settled on the arrival of the Nymphe, which may occur any day. The chances are that the whole trouble will be easily settled then.

A THOUSAND VISITORS.

Members of the I. O. F. Visiting the City—Meeting To Night.

The steamer Olympian, with the Independent Order of Foresters of Washington, arrived from the Sound at 2 o'clock this afternoon. She had on board over 500 passengers, who came over to spend the day with the members of the Order in this city. The local and visiting Foresters, headed by the Queen City band of Seattle, which also came over, marched through the city and then to the C.P.N. dock, where the Foresters from the Mainland, who came down on the Islander, were met and joined in the procession. The local and visiting members mixed together during the afternoon and took in the city and surroundings. A large number visited the Exhibition and Jockey Club races, while a contingent went to see Esquimalt and the dry dock.

The Courts represented by the visitors were the four Courts of Seattle, one of Tacoma, one of Port Townsend, one of Westminster, one of Nanaimo, two of Vancouver, one Encampment of Royal Foresters of Seattle and one Encampment of Royal Foresters of Vancouver.

A meeting of all the Foresters will be held this evening, when a scheme will be brought forward to establish a High Court, embracing Oregon, Washington and British Columbia. The visitors will leave for home at midnight.

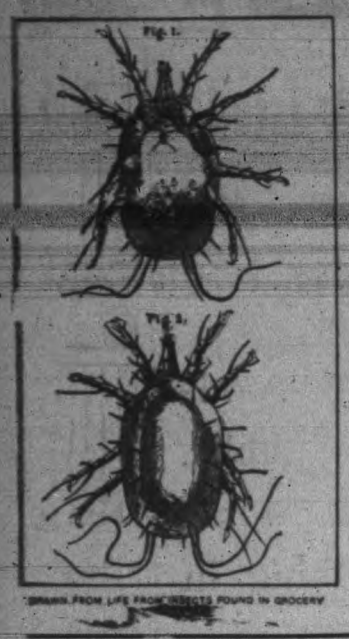
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

It is said that in the event of the Mercier government not being convicted by the Royal Commission, one of the first acts when the legislature meets will be to propose the adoption of a humble address not to His Excellency, but direct to Her Majesty, complaining bitterly of the unconstitutional proceeding of Lieut.-Governor Angers, asking for his removal and praying for such instructions to the Governor-General or such amendments to the constitution as will render a repetition of his course impossible in the future.

Chili and the United States.

NEW YORK, Sept. 30.—The Herald's Valparaiso cable says: It is not generally believed that ill-feeling towards Americans will be kept up, except on the part of valiant pot-blowers, aided by a few newspapers, and urged on by the British element, who are absolutely inimical to the United States. A firm attitute on the part of the United States will stop any nonsense, especially firmness backed by the presence of the white squadron.

PEACH GROWING.

To the Editor:—In your paper's report re New Westminster fair, 28th inst., I observe the following statement: "The exhibit of peaches was small. British Columbia lies too far north to raise peaches successfully."

I will merely state in reply that last year our Alexander peaches were first noticed to be ripe on July 23rd. Yield was large and quality excellent. Another variety ripened on or before August 17; yield very good and quality extra. The early Crawford ripened towards the end of September; late Crawford following. This year the Alexanders ripened a few days later than they did last year, while the early Crawford came in about Sept. 10, and were over ripe at fair time at New Westminster. The finest samples could not be saved. A number were so large that two-thirds of their size would not enter the top of a half-gallon gem jar. They were about as large as two ordinary hands closed together; quality extra.

Then your reporter adds: "The frosts came too early." We usually have a severe freeze towards the end of November, but last fall we had no real frost until about January 7; and the leaves on young peach trees in our garden were quite green until February 1, when the winter set in and frost remained with us for five or six weeks.

JOHN A. LUMSDEN.

Sumas, B. C., Sept. 29.

Grand Council of R.T. of T.

Subject to the announcement and appointment of Dominion Council, says the News-Advertiser, delegates from the various Councils met on Tuesday in the hall of Pacific Council, Vancouver. Delegates were present from New Westminster, consisting of Revs. Robt. Leunie, E Robson, T. Hadden, and Bro. McKinnon. Nanaimo, Mr. E. S. Cook and Mrs. E. A. Watson. Vancouver Council, No. 4, J. L. Powell, Mr. Hoshell, Mrs. McGuire; Emerald Council, Wellington, Rev. E. A. Green and Mrs. Hill; Mount Pleasant, Vancouver, W. B. Brydon Jack, M.D., T. J. Beatty and C. A. Arthur. The meeting was called to order by Grand Deputy J. P. Smith and the election of officers proceeded with, which resulted as follows: Grand Councillor, Rev. Ebenezer Robson; Grand Past-Councillor, Brother Powell; Grand Vice-Councillor, Sister Hill; Grand Chaplain, Rev. Bro. Green; Grand Secretary, Rev. R. Leunie; Grand Treasurer, Bro. Cook; Grand Auditor, Rev. T. Hadden; Grand Medical Referee, Doctor Brydon-Jack; Grand Herald, Bro. Hoskell Trustees, Bros. Sutherland, McDonald and McKinnon; Deputy Herald, Sister Watson; Grand Guard, Bro. McPhadden; Grand Sentinel, Bro. Beatty. A communication of great friendliness and courtesy was presented from the Grand Secretary of the I. O. G. T., and a resolution was passed accepting the communication and requesting the Secretary to acknowledge it in the spirit in which it was given. The regular business of the Council was then proceeded with, and a good deal of valuable information received and work done. This organization will make it a new era in the history of Royal Templary in British Columbia; it will have jurisdiction over all the Councils in the Province, and will endeavor to stimulate them in all temperance work. A hearty vote of thanks was unanimously passed to the Emerald Duet—Bros. Smith and Webb—for their work in instituting the Grand Council and their work in the interest of the Royal Templar Council and temperance in general in the Province. The motion was passed with great applause, and was feelingly responded to by Bros. Smith and Webb.

Robbed an Express.

Utica, N.Y., Oct. 1.—The special American express train due here yesterday morning was robbed between here and Little Falls. The robber brought the train to a standstill a mile east of this city, by applying the air brake and then escaped. It is not known how much was taken. The robber was masked. Express Agent Moore says two men robbed the car. He thinks they did not get much, as several packages of money were overlooked.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Pending the completion of these works, every effort will be made to continue the past reliable service, and to deal with patrons fairly. Any believing, however, that they have a grievance are invited to have the difficulty adjusted by presentation to the undersigned LOUIS REDON, President.

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

THE TURF.

The fall meeting of the Victoria Jockey club for 1891 opened to-day under exceptionally favorable circumstances and in beautiful weather. The track, which was not improved in the recent rains, dried up quickly within the last twenty-four hours, and, although not absolutely in record-breaking condition it was fairly good. The programme opened at 2 o'clock with a quarter-mile race and repeat. The entries for it are: G. W. Irving's Joe Wynn, L. W. Mann's Red Dick, Morgan O'Brien's Ben L., W. J. Hill's John L., Canen & Co's. Grey Eagle. The entries for the next race, the free for all trotting, are Lady Mac, Bishop Hill, Bess Watts and Silver Bell.

The mile dash will be run by G. W. Irving's Joe Wynn, L. W. Mann's Cyclone, J. A. McNeil's Ito, Behan's Mystery, and McAbee's Malina.

BASEBALL.

A meeting of the Pacific Northwest league was held at Tacoma on Tuesday for the purpose of discussing contested games.

The contested games between Seattle and Spokane, won by the former through an alleged error of the umpire; Tacoma and Portland, won by the latter. France not being allowed to pitch on the claim that he was not in uniform when the game was begun, and Tacoma and Portland, Aug. 6th, when Darby, the Portland, Me., suspended pitcher, was in the box, were all thrown out. This gives Portland seven more games to play, and a good chance for the pennant. The season was extended to Oct. 11 to finish the games, and it was decided to hold the annual league meeting the day following the last league game.

The baseball game at the agricultural grounds this morning, between the James Bays and V.A.C.'s was not as good as it would have been if the grounds were a little harder, but the boys worked hard and put up a fairly good game, The James Bay won easily with a score of 16 to 10.

THE OAR.

The Vancouver four-oared crew which lost to the James Bay boys at New Westminster last week, have left to attend the regatta at Portland which takes place on the 3rd of October. Had the Victoria boys a paper shell like their rivals they would have gone to Portland with them, and their friends have no doubt as to what would be the result. The boys must have a shell.

LACROSSE.

The Westminster junior lacrosse club will play the Victoria juniors at the agricultural grounds on Saturday morning, not the Vancouver juniors as previously published. This will attach more interest to the game.

SURF-RIDING.

How the Hawaiian Islanders Sport in the Breakers.

A curious pastime which is somewhat in vogue among the natives of the Hawaiian islands, and was more popular formerly than now, is surf-riding. In the opinion of a contributor to the Journal of American Folk Lore the difficulty of the accomplishment has been exaggerated. He describes it thus: Six stalwart men assembled on the beach of a small cove, bearing with them their precious surf-boards. These boards — in Hawaiian, "wave-sliding boards"—are made from the wood of the bread-fruit tree.

They are eight or nine feet long, fifteen or twenty inches wide, rather thin, rounded at each end, and carefully smoothed. They are sometimes stained black, are frequently rubbed with cocoanut oil, and are preserved with great care, sometimes wrapped in cloths. Children use smaller boards.

Plunging through the nearer surf the natives reach the outer line of breakers, and watching their opportunity they lay flat upon the board. The more expert among them kneeled. Just as a high billow was about to break over them they pushed landward in front of the combers. The waves rushing in were apparently always on the point of submerging the rider; but unless some mishap occurred, they drove him forward with rapidity upon the beach or into shallow water. In a high surf it is an exciting sport, and demands skill and experience.

A few days later I was initiated into the mysteries of surf-riding by my host, who is himself quite expert. I learned the principle, and believe that practice only is needed to gain a measure of skill. For persons accustomed to bathing in surf the process is far less difficult than is usually represented.

A LOST RIVER.

The Singular Disappearance of a Large Stream.

The Southern Pacific Railroad Company has lost a river, and in consequence has a bridge whose occupation is gone, says the Los Angeles Herald.

The Whitewater river has flowed from the Sierre Madre mountains across the sands of the region just this side of Seven Palms as long as anyone can remember. The station of Whitewater was located where the river crosses the railway and was supplied with water from its current.

During recent heavy rains the Whitewater rose in its might and devastated the whole country round about, washing out the bridge and the roadbed and playing the mischief generally. Soon the rains and the river stopped simultaneously, and the river has not been found since. It appeared to become ashamed of itself for doing so much harm, and has apparently slunk away in disgust and sorrow. It is entirely gone. At no point does it cross the railroad, as it would have to do were it still in existence in some new course. The railroad company, in order to secure water for its station at Whitewater, has been obliged to build a pipe line way up to the mountains at considerable expense.

All last summer, during the hottest, driest weather, the river ran placidly along—in fact, it has never failed until after its "jag" of last winter. Now it forms one of the mysteries of that mysterious region, the Colorado river desert, and perhaps is flowing by the Peg-leg mine, and possibly rippling beside the treasure-laden Spanish galleon, which lies somewhere in that region, buried in sand.

A Little Absent-Minded.

An elderly lady, accompanied by a young woman, apparently her daughter, who was seated in one of the cross-seats of a Sixth avenue "L" train one afternoon suddenly became very nervous, says the New York Telegram. After [illegible] pettishness whispered in the young woman's ear and both looked upon the floor as if searching for something. Finally the young lady arose and spoke to the guard. He returned with her and they raised the seats and looked underneath, but with no apparent success. A gentleman inquired the cause of the ladies' search. "I've lost my pocketbook, containing quite a large sum of money," said the elderly lady. "Why, my dear madam, you have a pocketbook in your left hand, and it has been there ever since you entered the car," he replied. The look he received would have crushed an ordinary man. She thanked him stiffly and settled down to a period of deep thought.

Our "Peerage."

The fashionable in America do not seem to be making a deep impression upon their countrymen. This is much to be regretted, says the Saturday Evening Herald, as several very well dressed people have asserted more than once that an aristocracy is indispensable to a high state of civilization; and when a statement of this kind is made by a person who has attained prominence in fashionable society life wants to believe it if it is a possible thing. Fashionable people are better dressed than the literary or scientific classes, and their utterances should have weight, but the ridicule which has so relentlessly attached itself to them in their diminutive past shows healthy signs of maintaining its grip for an indefinite period to come. Once in awhile some sober-minded person discusses seriously upon them and prevents our forgetting what a solid mortification they are to the better class of Americans.

Fussy Men.

Men are often more fussy and particular about insignificant things than women. There are thousands of men in New York who go miles out of their way to get shaved. I know men, says a writer in the New York Herald, who come down on the elevated, and who get off at some intermediate point to patronize a favorite barber. They have done so for years. The array of private cups in any shop illustrates the strength of this shaving habit. When a busy business man will sit half an hour in one of these shops and fumble the flash papers while he waits for his particular tonsorial artist to be at liberty, it strengthens the conviction that he is weaker than a woman. The man who doesn't learn to shave himself while his beard is young is laying up a life of slavery to public barbers. In the course of an ordinarily long lifetime he will spend about three years sitting around a barber shop and a year or two more going and coming.

Gas Made from Wood.

The local gas company in the town of Attleboro, Mass., has recently put in an apparatus for the manufacture of gas from wood and crude Lima oil. It is claimed that wood gas is not only the most healthful, but the brightest gas made. It is said that one cord of dry wood and 300 gallons of Lima oil will yield 60,000 to 80,000 cubic feet of gas of 20 to 30 candle power, with a residue of nearly two barrels of fine tar and 65 bushels of merchantable charcoal. The gas is made in retorts in from two to three hours. The retorts differ but little from those used in the manufacture of ordinary coal gas. The wood used is maple.
